Professional Summary

Instructional Designer with an overall ten years of experience across training, instructional design, enterprise software training, product demonstrations, video-based learning, curriculum development, and multimedia content development. Experienced in transforming complex technology products, features, configurations, and use cases into clear, engaging, customer-facing learning experiences.

Currently working as an Instructional Designer at SummitAI, developing customer-facing product training, feature demonstrations, interactive simulations, and sales and marketing videos for enterprise software products. Created 100+ product training and feature demonstration videos across ITSM, ITAM, and Admin modules and 30+ customer-facing Navattic simulations used for training, product demonstrations, and sales engagements.

Strong end-to-end ownership across topic analysis, audience-focused learning objectives, SME collaboration, instructional scripting, visual design, storyboarding, video development, interactive simulation development, review cycles, and final delivery. Experienced in leveraging AI-assisted content development, generative media, and rapid development tools to improve content development efficiency.

Tools & Technology

eLearning & Instructional Design: Articulate 360 (Storyline & Rise) | Navattic

Video & Multimedia: Canva | Adobe Premiere Pro | Vyond | Adobe Rush | Camtasia | Snagit

Visual Design: Canva | PowerPoint | Adobe Photoshop | CorelDRAW

AI & Generative Tools: ChatGPT | ElevenLabs | Canva AI | Google Flow | AI-assisted content development

Professional Experience

SummitAI

Instructional Designer | September 2024 – Present

- Developed **100+ customer-facing training and feature demonstration videos** across ITSM, ITAM, and Admin modules, covering features, configurations, workflows, use cases, and customer scenarios
- Created content for **global customers and certification-oriented learning paths**, translating complex enterprise software into simple, learner-friendly experiences
- Independently manage assigned topics **end-to-end** product research, learning objectives, instructional scripting, SME reviews, visual planning, development, revisions, and final delivery
- Developed **40+ customer-facing Navattic simulations** for product learning, demonstrations, and sales engagements, independently managing design, screen capture, hotspots, scripting, narration, reviews, and delivery
- Created differentiated Navattic experiences for **training and sales audiences**, with sales demos used by a **10-member sales team** during customer and prospect conversations

- Created **10+ marketing and sales videos** for product launches, feature announcements, product explainers, and use cases, published across the website, YouTube, LinkedIn, and events
- Work directly with the **Marketing Head, Product Managers, SMEs, and technical documentation teams** to understand requirements, validate product knowledge, and develop customer-focused content
- Pioneered the team's adoption of **Navattic and marketing video development**, becoming the first team member to develop solutions in both areas
- Created a **60+ page Marketing Video Development Playbook**, formally approved for use by the Instructional Design and Marketing teams, covering SOPs, workflows, templates, brand guidelines, review processes, and AI-assisted development practices
- Leverage **AI-assisted workflows** for scripting, ideation, visual and image generation, voice generation, video assets, and rapid content development using ChatGPT, Copilot, ElevenLabs, Canva AI, and Google Flow
- Drive projects independently from **concept to completion**, simplifying moderate-to-complex product concepts into clear, engaging learning and demonstration experiences

Amazon

Instructional Designer | November 2022 – August 2024

- Developed **75+ digital learning modules** across learning and content development initiatives
- Created learning experiences using **Articulate Storyline and Rise**, supported by multimedia and visual development tools
- Designed **60+ posters and visual communication assets** for learning and organizational communication
- Developed **20+ short-form learning videos** and approximately **6 animation videos** using **Vyond**
- Created **storyboards, animations, videos, templates, posters, infographics, and presentations** aligned with learning objectives and organizational standards
- Translated requirements and subject matter into **structured, learner-focused learning experiences** from concept through final delivery
- Collaborated with **SMEs, managers, and stakeholders** to clarify requirements, validate content, incorporate feedback, and ensure learning alignment
- Conducted **audience analysis** to understand learner needs and inform content structure, instructional approach, and presentation
- Managed multiple development initiatives simultaneously while maintaining **quality standards and delivery timelines**
- Applied **instructional design, visual communication, and multimedia principles** to create engaging and accessible learning experiences
- Managed **LMS publishing and content updates** to support ongoing delivery
- Supported **post-implementation evaluation and continuous improvement** of learning experiences

Wiztoonz Academy of Media & Design

Course Coordinator | April 2021 – July 2022

- Coordinated academic operations and learning delivery for **500+ students** across undergraduate and diploma programs
- Coordinated a faculty group of **8 full-time faculty members**, including schedules, allocation, academic calendars, and course delivery
- Contributed to **curriculum development, course structures, learning materials, workshops, and enrichment programs**
- Designed course outlines and learning activities aligned with **university requirements and program objectives**
- Facilitated **entrance tests, student induction, onboarding, and learner support** activities
- Coordinated industry interactions, workshops, soft-skill programs, and other **student learning initiatives**
- Delivered university-level learning in **Communication, Leadership, Communicative English, and Research**

Byju's - Think & Learn Pvt. Ltd.

Project Coordinator | October 2020 – March 2021

- Coordinated **creative and video-production workflows** across multiple teams
- Translated project briefs into **clear requirements and actionable tasks** for creative teams
- Planned timelines, tracked deliverables, and coordinated follow-ups to maintain **project schedules**
- Served as a bridge between **studio and creative teams**, ensuring smooth communication and workflow
- Supported the **end-to-end video production pipeline**, including coordination and project documentation

St. Paul's Institute of Communication Education

Course Coordinator / Faculty | July 2016 – August 2020

- Coordinated the **Department of Media Studies** across undergraduate, postgraduate, and diploma programs
- Managed learning delivery and academic operations for **100+ students**
- Coordinated **full-time and approximately 15 part-time/visiting faculty members**
- Planned **academic calendars, timetables, examinations, faculty schedules, and program activities**
- Designed and contributed to **curriculum development** across media and communication programs
- Designed the curriculum for a **BA Film Studies program** and contributed to its academic and industry collaboration for integration into **Bengaluru University**
- Formed and coordinated a **Board of Studies** for curriculum development initiatives
- Designed and delivered courses in **Communication, Research, Event Management, Marketing, Advertising, and Public Relations**

MullenLowe Lintas Group

Project Manager | June 2016 – June 2017

- Managed **client servicing and project coordination** for brands including **Flipkart and Hike Messenger**
- Served as the liaison between **clients, creative teams, studios, and production partners**
- Managed **project requirements, timelines, estimates, approvals, and deliverables**
- Coordinated creative and production workflows to ensure **smooth and timely project execution**

Other Experience:
